

Spiral

The following objects each have a spiral shape. The physical material and forces at work are very different. Are there deeper underlying forces common to them all?

Medium: Pine Cone
Produced By: Organic Growth
Shaped By: DNA

Medium: Water Vapor
Produced By: Evaporation
Shaped By: Heat and Gravitation

Medium: Stars, Gas & Dust
Produced By: Big Bang
Shaped By: Gravitational Forces

Medium: Daisy
Produced by: Growth
Shaped by: DNA

Medium: Sunflower
Produced By: Organic Growth
Shaped By: DNA

Medium: Nautilus
Produced By: Organic Growth
Shaped By: DNA
